

We hope you enjoyed our first unit of study, Welcome to Pre-K! We are excited to begin Unit 2: My Five Senses. Pre-K children naturally use their senses to explore the world around them. In our pre-K program your child will have the opportunity to develop a wide variety of skills by using his/her senses in hands on learning and play.

In this unit we are working on developing children's abilities to take in information about the world through sight, hearing, smell, taste and touch. We will take walks around the neighborhood, go on scavenger hunts and engage in many other activities where children use their senses. Children are active learners; they have been exploring their environment through their senses since birth.
